

Universal in-wall key set for an unproblematic installation and exchange of in-wall water meters

Key set for the most common in-wall water meter types containing 11 mounting keys, adaptors, leverage key and socket

- Key set for the most common in-wall water meter types with patented adaptor
- Patented socket wrench with an effective leverage effect
- In a functional case, always ready to hand

Efficient, functional, durable

With the new universal in-wall key-set you totally control the exchange of in-wall water meters. Because it contains keys for all marketable in-wall water meters of the past 20 years, as well as a patented socket wrench system for an effective installation - despite of calcified threads.

Practically you will never meet the problem of "surrendering" in front of a water meter again, or have trouble finding the adequate tool.

Ratched is not part of the set

Note:

Special stainless steel, precision machined and additionally hardened for a long service life. Safely stowed in a functional case.

In the future you'll install and exchange your in-wall water meters in no time and without any effort.

Technical data / the key set contains:

- Key 01 = ABB-ABB adaptions + coaxial systems
- Key 02 = ABB-W + Kundo
- Key 03 = Allmess UP-6000
- Key 04 = Metrona K3 + ABB M 140/C, 307/A
- Key 05 = Metrona 307/1
- Key 06 = Minol MB 2
- Key 07 = Minol MB 3

- Key 08 = Techem Vario S
- Key 09 = Viterra II
- Key 10 = Wasser-Geräte
- Key 11 = Zenner + SPX + Rossweiner
- Adaptor 1
- Adaptor 2 with lever
- Socket

Order no.: 33000
